

## IntelSat and Telefónica Global Solutions (TGS) Partner to Bring High-Speed Connectivity to Telefónica Germany in Rural and Remote Parts of the Country

December 16, 2021

MCLEAN, Va.--(BUSINESS WIRE)--Dec. 16, 2021-- Telefónica Germany is now using the IntelSat CellBackhaul managed service through Telefónica Global Solutions (TGS) to bring 4G LTE mobile coverage rapidly, cost-efficiently, and reliably to customers in some of its most rural coverage areas.

Telefónica Germany is always working to strengthen and expand its national network coverage. Now it can access the digital services that are key in today's world as well as remote areas of Germany that cannot be reached by traditional technologies such as microwave or fibre.

IntelSat CellBackhaul, an end-to-end managed service recently launched for Europe, proves an ideal solution because it helps MNOs of any size to expand 4G mobile coverage. Now, with IntelSat CellBackhaul technical solution as part of its network strategy, and Telefónica Global Solutions support and contribution, German network provider Telefónica Germany can ensure its subscribers stay connected at more places anywhere they go.

Telefónica Global Solutions is a prime contractor with the support of IntelSat, deploying a satellite solution to Telefónica's mobile 4G network extension in Germany. Thanks to this project, Telefónica Global Solutions continues to be the market reference point for cellular backhaul services over satellite.

"This is a key project in the region for Telefónica Global Solutions to continue being a reference as satellite cellular backhaul provider. And it will allow to provide 4G connectivity in a fast and cost-efficient way in those places where terrestrial solutions are not viable," said the Head of Satellite Services Business Unit in Telefónica Global Solutions, Enrique Macho.

"IntelSat CellBackhaul, using the IntelSat Epic HTS satellites, can help MNOs of any size expand coverage or build resiliency into their existing networks," said IntelSat Regional Vice President of Europe and MENA Sales, Rhys Morgan. "We look forward to a long and productive partnership with Telefónica Global Solutions, helping them quickly and cost-effectively expand their coverage to meet demand and bring connectivity into areas previously considered unreachable or unprofitable."
